

# Health and Safety In The Workplace

## Level 3 Award

### Course Overview

Health and Safety in the Workplace (Level 3) is aimed at supervisors, managers, team leaders as well as employees seeking advanced qualifications in health and safety.

Supervisors, managers and team leaders have legal and moral obligations to ensure health and safety within a business, and that this includes obligations to employees, contractors, visitors and suppliers.

The Health and Safety Executive consider this to be important to developing and maintaining safe working procedures in the workplace.

### How The Course Works

Group activities and discussion with assessment by multiple choice exam and workbook.

Participants will be able to:

- Understand roles and responsibilities for health, safety and welfare in the workplace
- Understand the principles risk management and the benefits of using a safety management system
- Understand the risks and control methods for common workplace hazards

**Duration - 2 days**  
**Only £170**  
**per person**  
**To book, call**  
**01253 806916**

### Benefits For The Individual
